PROFESSIONAL SUMMARY

As a versatile professional, I bring a unique blend of leadership, technical expertise, and creative passion to every project I undertake. With extensive experience in AV production, live sound, and post-production audio, I excel at managing complex setups and delivering seamless experiences across events, media, and educational environments.

Beyond technology, I have a rich culinary background as a chef and cookbook author, combining precision, creativity, and storytelling through food. Music has also been a lifelong pursuit—I'm a tuba player and active musician, bringing collaboration, discipline, and an ear for detail to all creative endeavors.

Sound design, recording arts, and other artistic pursuits allow me to bridge the gap between technical skill and artistic expression. I thrive in environments where diverse talents intersect and enjoy leading teams, solving problems, and delivering high-quality results that leave a lasting impact.
